INTRODUCTION

Understanding the need for a reliable and transparent e-commerce solution, we developed **CourseCommerceManager**, a blockchain-based platform that leverages the Ethereum network.

CourseCommerceManager is a **smart contract** on the **Ethereum** blockchain designed to manage online product sales.

KEY FEATURES

PRODUCT LISTING:

Easy to add new products for sale.

TRANSPARENT PURCHASING:

Buyers can purchase products directly with **Ether**.

SECURE SALES RECORD

Each sale is recorded securely on the **blockchain**.

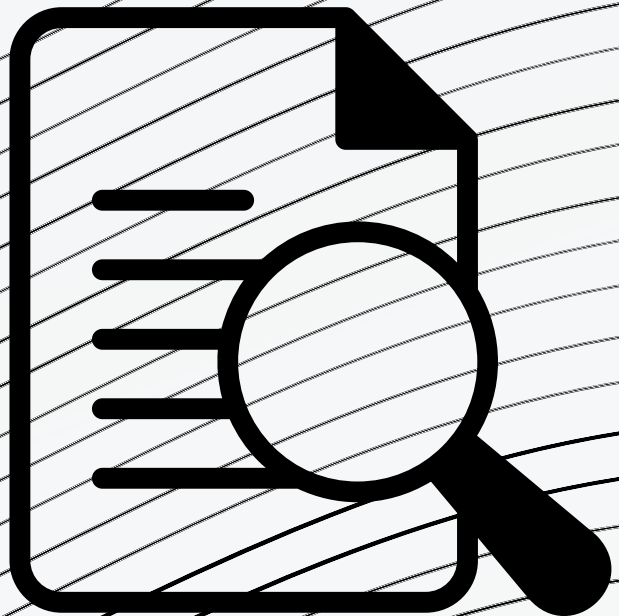

OWNER PRIVILEGES

Only the contract's **owner** can add products and withdraw funds.

BENEFITS

Transparency:

All transactions are transparent and verifiable on the Ethereum blockchain.

Security:

Funds are securely handled within the contract until the owner decides to withdraw them.

Efficiency:

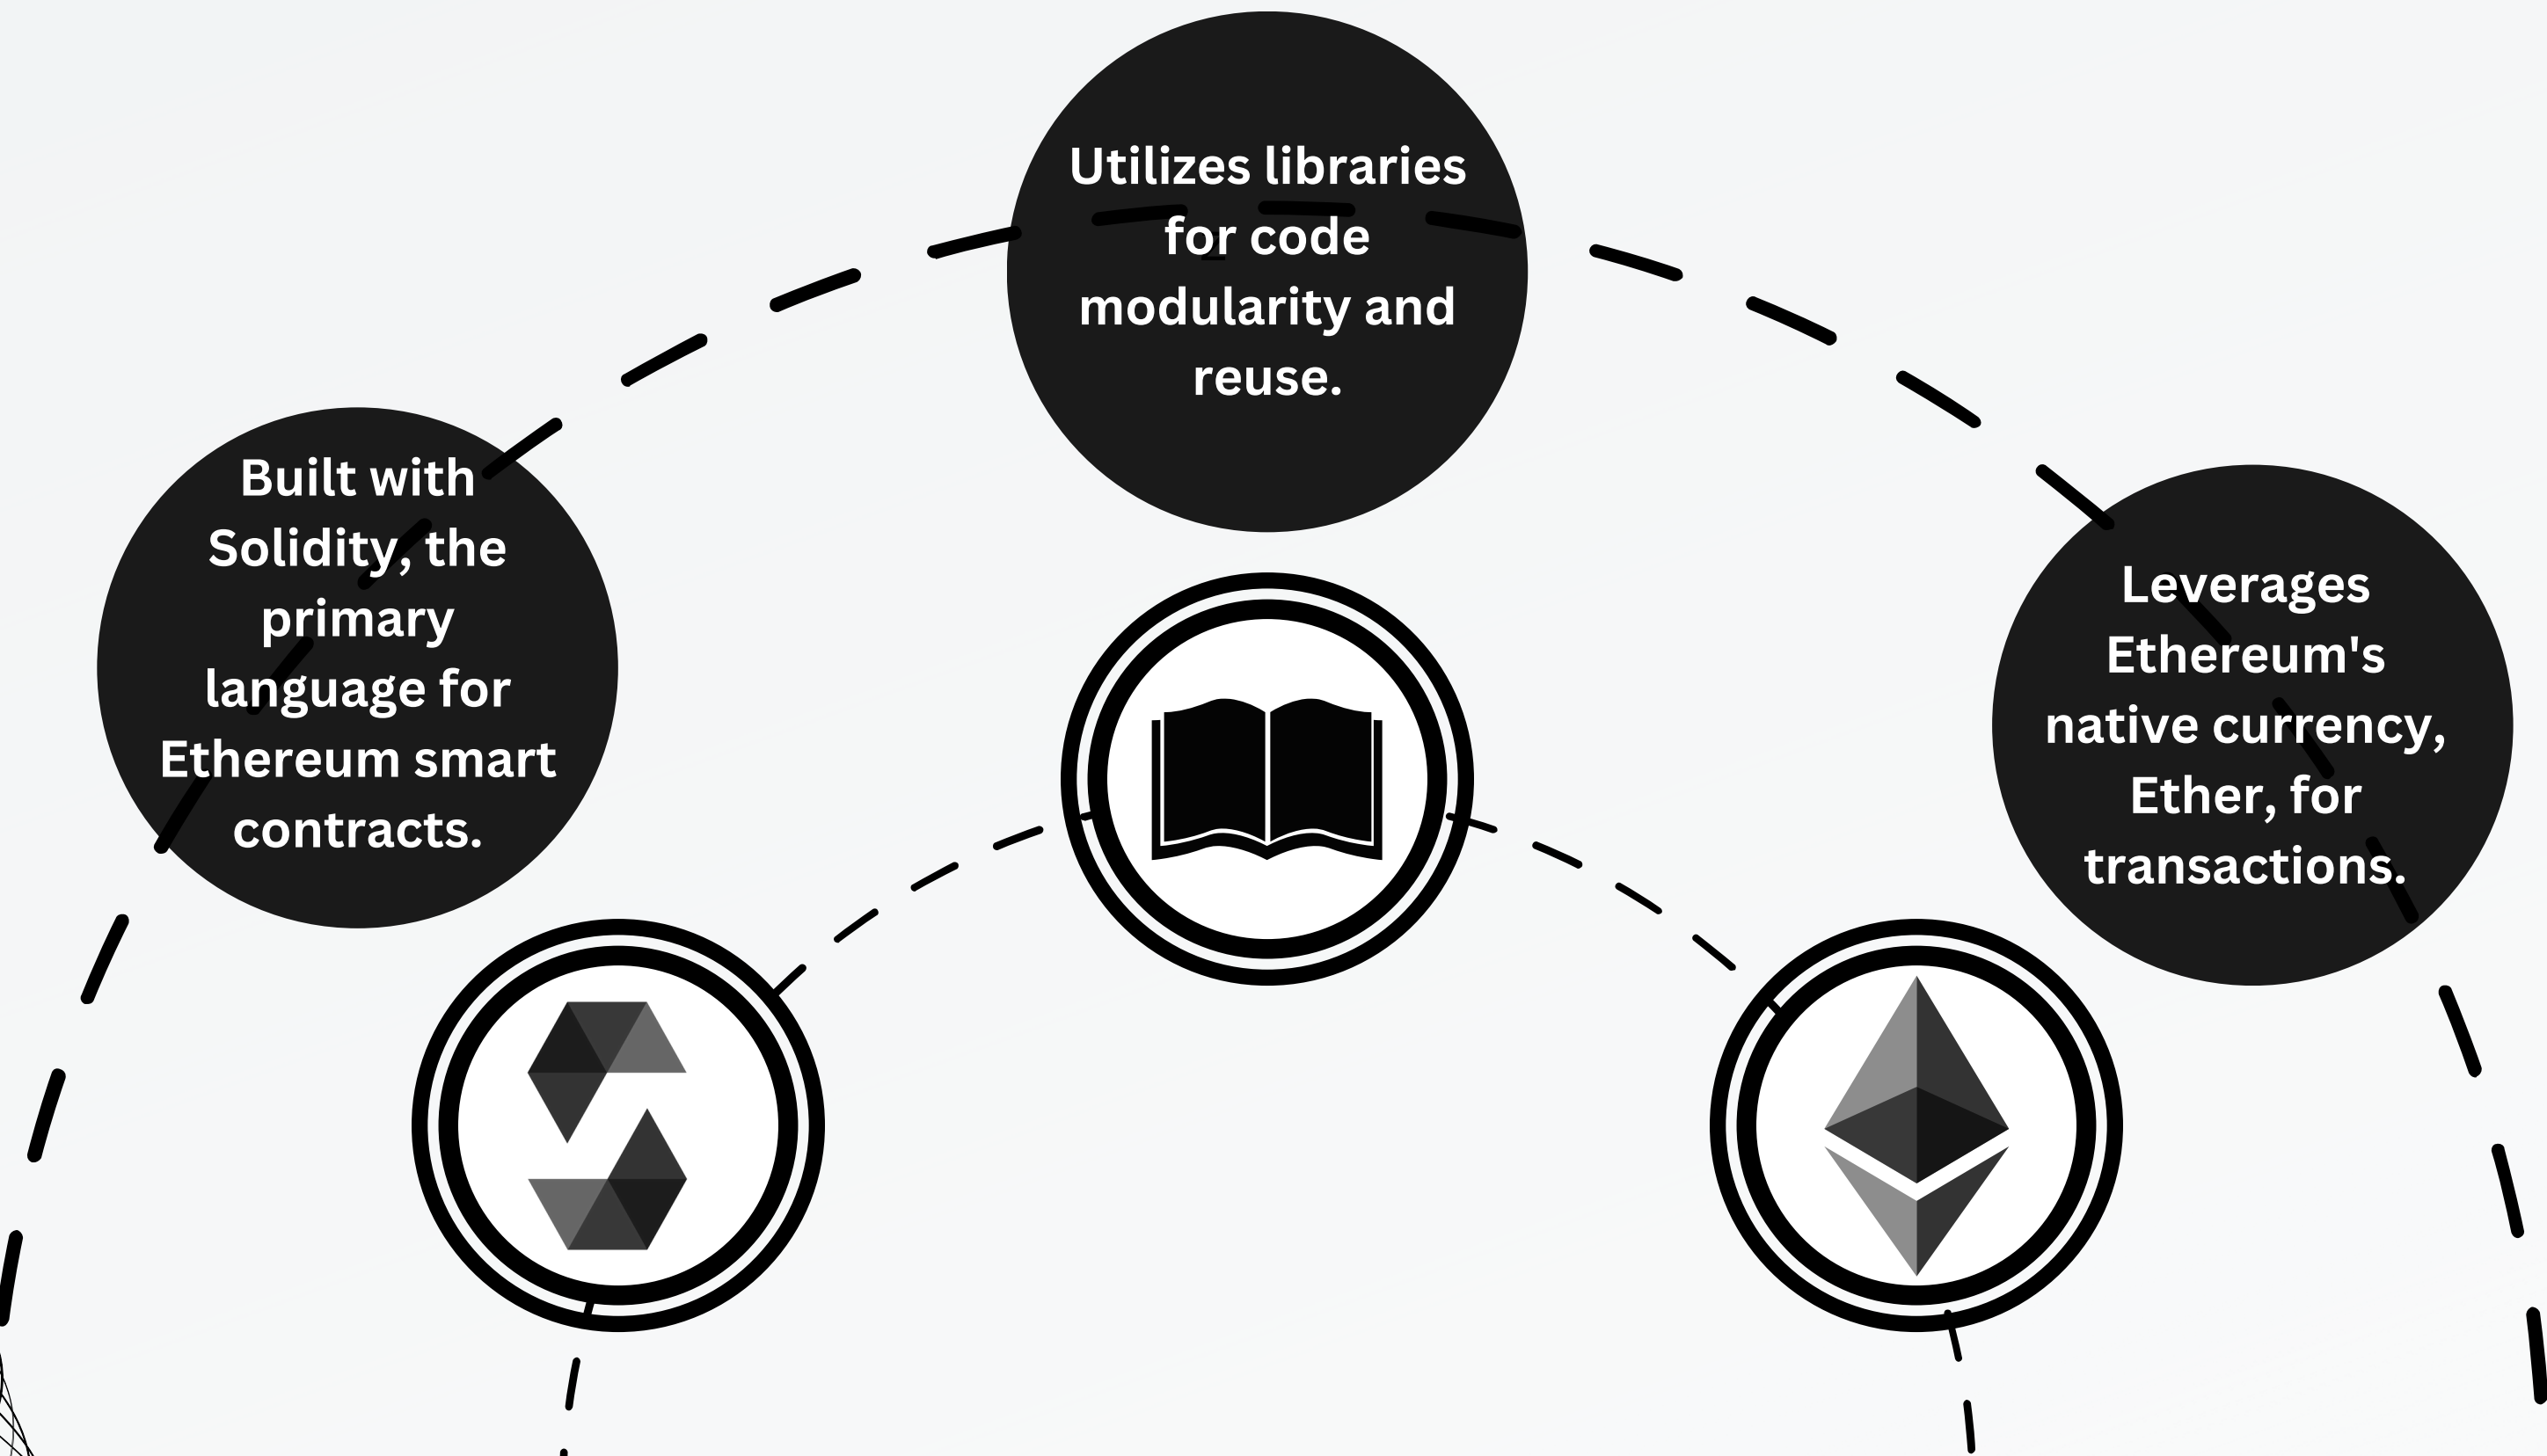

Utilizes the Ethereum network for efficient and fast transactions.

Scalability:

Built to accommodate a growing list of products and sales.
